At Medland Dental we believe that prevention is better than cure. That's why we have introduced an upfront payment plan that offers a discount to those who commit to regular check-ups and preventive dental work.

#### Details of the Plan

- Package includes twelve (12) months of preventive care services: two (2) periodic examinations (ADA code 012), two (2) scale and cleans (ADA code 114), two (2) fluoride treatments (ADA code 121) and two (2) radiographs (ADA code 022) (if clinically required) in a twelve (12) month cycle.
- By paying Medland Dental upfront for the above Preventative Care Plan, a patient will receive a 5% discount on Medland Dental's normal cost of the above services.
- The upfront payment can only be used as credit for the preventive care services listed above and cannot be used for any other services (including emergency treatment or any other dental treatment)
- Credit must be used within twelve (12) months + six (6) weeks from the date the upfront payment is made. Any unused credit after this time may not be carried forward and will be forfeited.
- Health Fund rebates can still be claimed however, HICAPS facility is not available in respect of treatments performed pursuant to upfront payment. A receipt will be issued for the preventive care services that may be submitted directly to your Health Fund for any eligible Health Fund Rebates.
- This plan is subject to change without notice. You are bound by the terms and conditions as amended from time to time.
- This plan may be withdrawn at any time.
